This game is absolutely unacceptable. Terrible interface, terrible performance, terrible gameplay, terrible soundtrack. They didn't even include freaking graphic settings. **YOU CAN'T EVEN CHANGE THE RESOLUTION.** 0/10. Simple arithmetic logic game. The kind of game to play a few levels of when you have 5-10 minutes to kill and want something quick and satisfying to do.. This is one of the best games i have played to date. I am starting my own pro team on HeadShot we are hoping to compete in the ELEAGUE HeadShot. Please support by buying our merch. Headshot>Csgo. This game is raw statigie, there is no story, and ther are only seven diffent ships. Despite its simple elements it is a good statigie game, that requires you to have good foresight.. Great Game!

I have been skiing for 25 years. This game gives me flashbacks of close calls from my youth when I would do jumps too big for me. The landings tell my brain to expect pressure on my knees so I overcompensate and neigh fall over- its a blast. All the fun of big jumps minus the pain. Its a VR favorite of all my skier friends too.. The game reminded me resident evil, code veronica. It looks like a classical horror survival game. I will take my time to beat it and i will keep you informed. As for now, it seems like an oldschool horror survival game, including puzzles and gameplay. I will be back with my news, cheers to the devs for staying around and giving big time to fix it.. cossacks is easily one of my favorite game titles and with the napoleonic wars being one of my favorite periods of history this game brings the two together perfectly

. Uniball is the best game I have ever played! The game mechanics are very simple and easy to learn, but it needs much time to really master the game. There are lots of different maps with different game modes, which brings a broad variety to the game. Each player develops an individual play style, which prevents you from getting bored. And as Uniball is 100% free, without any hidden costs, it is a must to download it (just a few MB) and try it out for yourself!

10/10. Boring and buggy game. Could of been a good game but the developers are non-existant, game constantly crashes and has issues, no update since last october.
